

Community-Centered Transportation Leadership to Curb Pollution

We're excited to launch our **Transportation Justice Leadership Grants** to support community-driven initiatives that improve transportation systems for environmental justice communities while reducing carbon emissions.

ELIGIBILITY

Applicants must serve overburdened communities, vulnerable populations, and people disproportionately impacted by transportation inequities, greenhouse gas emissions, and climate change. Experience with state grants, transportation, or emissions reduction is not required.

Grant funds must be used for low-carbon transportation improvements that benefit environmental justice communities in Washington State. **All grant-funded work must be completed by June 30, 2025.** No matching funds are required.

HOW TO APPLY

Applications will open on Oct. 9, 2024, and remain open for submission until May 15, 2025. Applicants will submit their project ideas by answering three preliminary questions on [the JustFund portal](#).

Applications will be evaluated bimonthly after each evaluation window, as part of a continuous review and selection process:

- October 9 to November 30, 2024 (review in early December)
- December 1, 2024 to January 31, 2025 (review in early February)
- February 1 to March 31, 2025 (review in early April)
- April 1 to May 15, 2025 (final review by mid-May)

All final decisions will be made by May 15, 2025, and no applications will be accepted after this date. Later, applicants will then be invited to a virtual interview to present a more detailed project work plan and general budget.
